

SCCS Chinese Syllabus 3rd Grade Non-heritage Chinese Class

Textbook: MY FIRST CHINESE READER VOLUME 2

Teaching goal:

- Students will develop interest and confidence in learning the Chinese language by listening, speaking, reading and writing.
- Students will learn Chinese language vocabularies related with directions, price, languages, nationalities, weather and animal descriptions.
- Students will understand the statements and questions related with directions, price, languages, nationalities, weather and animal descriptions and will communicate use what they learn.
- Students will practice writing Chinese characters and learn the most commonly used radicals, the building blocks of Chinese writing.

Teaching schedule:

There are total 13 weeks and 26 classes in this semester. We will use total 24 classes for lessons and last 2 classes for final review and exam.
